## "Good Fight" – Maimouna Youssef

Look at how far we've come  
Look at how many didn't last this long  
Baby we're so strong  
And all the lies that they told about us still can't stop  
is  
Cause we're stronger than ever when we stand  
together  
Never lose faith in each other  
We're unbreakable  
We're unshakeable  
Impenetrable  
Faithful  
I sing this for my people

When the war drums sound  
And the barricades come breaking down  
I'm gonna stand by you  
Side by side  
Together we're gonna fight the good fight

This is our love song  
This is our battle cry  
Fight the good fight for love, for life  
The good fight  
We gon fight the fight for love  
We gon fight the fight for life  
For love, For light, Forever  
Whether we win or we lose we're together

See in true love there's no fear  
So no matter what comes I'm gonna stand right  
here  
There's only joy in my tears  
We serve a calling from the Most High (yes)  
And it's bigger than greed or pride  
We sing out tonight to the moon and the sky  
Water is life

When the war drums sound  
And the barricades come breaking down

I'm gonna stand by you  
Side by side  
Together we're gonna fight the good fight  
This is our love song  
This is our battle cry  
Fight the good fight for love, for life  
The good fight  
We gon fight the fight for love  
We gon fight the fight for life  
For love, For light, Forever  
Whether we win or we lose we're together

Your guns can't kill this love  
Your money can't buy this faith  
Your hatred can't kill this joy  
It comes from a bountiful place

A coward dies a meaningless death  
But we'll live forever when we pray  
Oooooohhhh  
Fight the good fight for love, for life  
The good fight  
We gon fight the fight for love  
We gon fight the fight for life  
For love, For light, Forever  
Whether we win or we lose we're together
